

DECLARATION OF CONFORMITY OF MATERIALS AND OBJECTS THAT COME IN CONTACT WITH FOOD

We hereby declare that :

the products MPS AZZ500, SVS05 AZZ500 provided at SCATOLIFICIO ERREDI are suitable for the packaging of the food;

beverages containing less than 10% alcohol, fresh and dried biscuits, pastry, chocolate and dairy products with non-oily surface moist, not powder or crystal sugar, fruits and vegetables and not wet derivatives not as flour or puree nor as powder or dried, peeled or sliced, nuts, dry vegetables in the form of paste or puree juice, vegetables in oil medium, fats and oils, animal products and eggs cooked in liquid or aqueous medium, edible melting cheese with and without fluxes, cheese in an oily medium.

are suitable

to all relevant legislation, with particular reference to the following European Community law:

- Regulation (EC) 1935/04
- Regulation (EC) 1895/05
- Regulation (EC) 597/08
- Regulation (EU) 10/2011 and subsequent modifications and upgrades
- Regulation (EU) 202/2014

and to the following Italian law:

- *Ministerial Decree 21/3/73 and subsequent updates and changes*
- *DPR 777/82 and subsequent updates and changes*

The plastic material is manufactured with the following materials and substances:

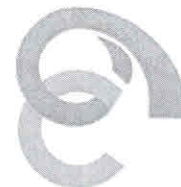

monomer PVC and stabilizers containing tin in organic form

We declare that:

the material contains substances which are subjected to restrictions in the mentioned laws and respects the limits of global migration and the specific restrictions.

In the following test conditions:

GLOBAL AND SPECIFIC MIGRATION IN THE SIMULANTS

A, B, D2 at 60 °C for 10 gg

The global migration limit, along with other specific restrictions to which monomers and/or additives presented in the material may be subjected, are respected in the conditions mentioned above. The statement is supported by analytical tests conducted in accordance with the Ministerial Decree 21/3/73 or based on calculations made by considering the content of the substances subjected to limits of migrations. The calculations were performed assuming that 1 kg of food come in contact with 6dm² of packaging material.

In the product there are no substances regulated by the Reg. (EC) No. 1333/2008 and Reg. (EC) No. 1334/2008 (such substances are also called "dual use additives"). According to experimental data and/or theoretical calculations, these substances are in accordance with the provisions of art. 11, paragraph 3, letter a, b of the Reg. (EU) No. 10/2011 and of the Ministerial Decree 21/03/73.

The product cannot be used, together with the food, in a traditional oven.

The product cannot be used, together with the food, in a microwave oven.

The product cannot be used, together with the food, at low temperatures.

The company claims the technological suitability of the product for the purpose to which it is intended.

This declaration is valid from the date shown at the end of the page and will be replaced in the presence of substantial changes in the production of the material which can modify some essential requirements for the compliance or when the hereby cited legislative references are amended and updated so as to require a new verification for the compliance.
